

Pile Protection and Strengthening System

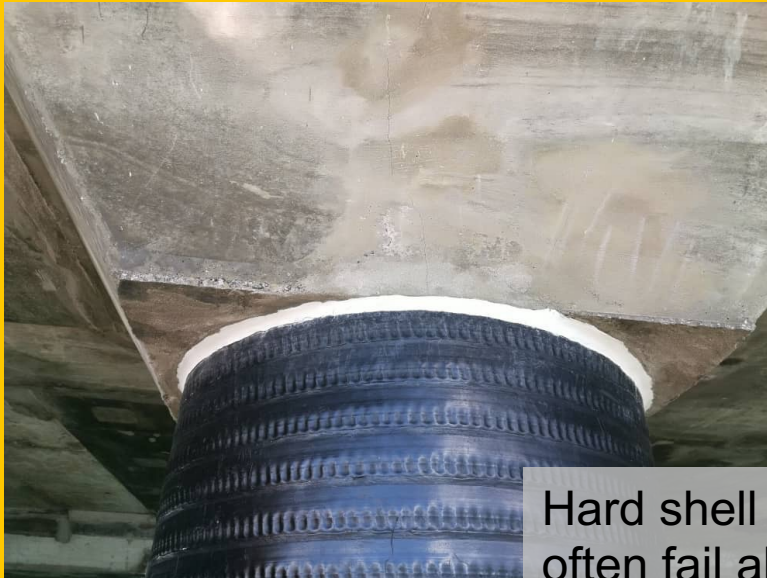

Damaged
steel casing.

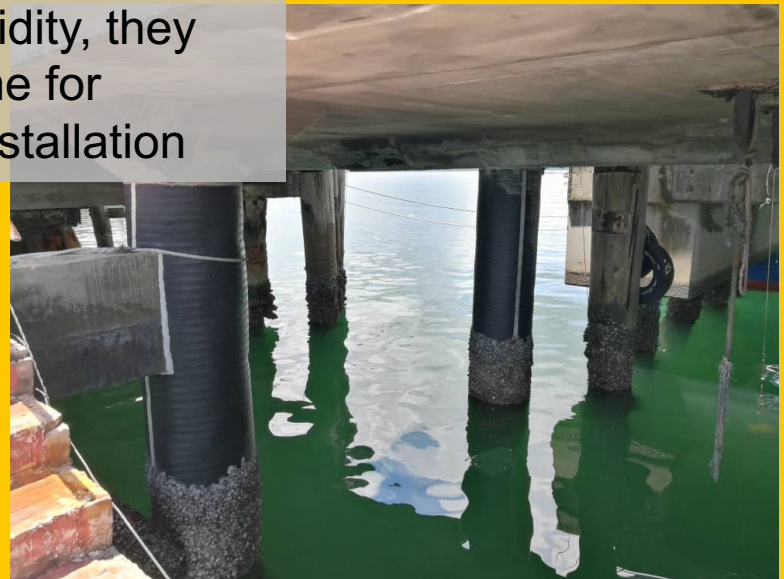

Traditional Methods of Pile Protection Using Hard Shell Jackets

RNC

Hard shell protection systems often fail along seams and owing to their rigidity, they require longer time for fabrication and installation

Traditional Methods of Pile Protection Using Hard Shell Jackets

Introducing Fabricform

- ✓ Fabricform Pile Jacket is an advanced pile strengthening and protection system.
- ✓ Its high tenacity polyester jacket and marine grade self compacting remediation concrete provides long lasting protection against chloride ingress and impact damage.

Introducing Fabricform

RNC

Fabricform provides flexibility of form and efficiency in its installation whilst providing long lasting resistance against chloride ingress and abrasion damage
